Health Security At a Glance

2019 - 2025

Why Health Security Matters:

Facts:

Nigeria had 20 public health emergencies in 2 years (2016–2018)*

- High disease burden & travel and mobility = increased risk of outbreaks

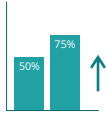

Our Solution:

DRASA strengthens preparedness & response systems by making health security inclusive & data-driven

Strengthening National Capacity on Pandemic Preparedness

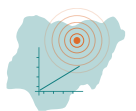

24 epidemiology and surveillance professionals trained on pandemic modeling using R software.

Data analysis skills improved **(50%-75%)**

Mpox data backlog of over **4million** rows of data cleared using R

Time-series data identified disease hotspots

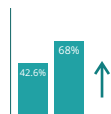

Ensuring Integrated Responses to Public Health Emergencies

13 emergency management teams established at Points of Entry in **9** states

6,162 border community residents equipped: market women, transport workers

61% Knowledge increase, from 42.6% at baseline to 68% at endline

Developing a Youth for Pandemics Alliance (Youth PALLI) Network:

Focus: Embedding youth & civil society in health governance to make health security inclusive & data-driven

Cohort 1: **34** youth and civil society onboarded from **14** states

Training includes **6** modules on Health Security, AMR, Social and Behaviour Change Communication and advocacy
